Presentation:

There was no one from the public in attendance. However, a presentation was still given to those in attendance, despite their familiarity with the projects.

Adjournment:

The recommended plans provide a design for correcting the structural deficiencies of the existing bridges while minimizing the need for future maintenance. Accordingly, the Department intends to seek design approval for the proposed plan. The Department will continue to keep the City informed of any changes that may occur as the design is being completed and will notify the City as the project transitions into the construction phase.

The meeting was adjourned at 7:30 PM.
